DETAILED ACTION

Page 2

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or

additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the

payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with

Mr. Ron Kachmarik on June 3, 2005.

The application has been amended as follows:

a. Please amend claim 29 as follows: In line 8 of the claim (the end of the claim),

after the phrase "probe tip" and before the period, please add the phrase "for a

predetermined time interval".

b. Please amend claim 38 as follows: In line 9 of the claim, after the word

"exerted", please add the phrase " for a predetermined time interval ".

Application/Control Number: 10/718,859 Page 3

Art Unit: 2859

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

a. Claims 2-3, 13 and 43 are allowable over the Prior Art of Record because it fails

to teach or suggest a method for enabling a command to switch the measure mode to be

entered in a dimension measuring column provided with a probe tip wherein said

command to switch the measure mode is entered by pressing the probe tip against a piece

to be measured during a time interval greater than a predetermined value in combination

with the remaining limitations of the claims.

b. Claim 18 - 19 and 44 are allowable over the Prior Art of Record because it fails

to teach or suggest a dimension-measuring column comprising a probe tip wherein at

least one of said measure modes can be selected by acting on the position of the probe tip

without any other handling operating being necessary and wherein said measure mode

can be selected by pressing the probe tip against the piece to be measured during a time

interval greater than a predetermined value in combination with the remaining limitations

of the claims.

Application/Control Number: 10/718,859

Art Unit: 2859

c. Claim 29 is allowable over the Prior Art of Record because it fails to teach or suggest a computer data carrier comprising a command program for measuring and displaying system in a dimension measuring column, wherein said program enables anther of said measure modes to be selected by acting on the position of the probe tip for a predetermined period of a time in combination with the remaining limitations of the claims.

Page 4

- d. Claims 33 and 45 are allowable over the Prior Art of Record because it fails to teach or suggest a method enabling a command to switch a measure mode to be entered in a dimension measuring column provided with a probe tip, wherein said command to switch the measure mode is entered by pressing said probe tip against a piece to be measured during a time interval shorter than a predetermined value in combination with the remaining limitations of the claims.
- e. Claims 36 and 41 are allowable over the Prior Art of Record because it fails to teach or suggest a method enabling a command to switch the measure mode to be entered in a dimension measuring column provided with a probe tip wherein said command to switch the measure mode is entered by maintaining the probe tip pressed against said piece to be measured during a time interval longer than a predetermined time greater than zero in combination with the remaining limitations of the claims.

Application/Control Number: 10/718,859

Art Unit: 2859

f. Claims 37 and 42 are allowable over the Prior Art of Record because it fails to teach or suggest a dimension-measuring column a probe tip wherein a command to switch the measure mode is entered upon a detection of a pressing force between the probe tip and a piece to be measured during a time interval longer than a predetermined time greater than zero in combination with the remaining limitations of the claims.

Page 5

- g. Claim 38 is allowable over the Prior Art of Record because it fails to teach or suggest a method enabling a command to switch the measure mode to be entered in a height measuring column provided with a probe tip wherein said command to switch the measure mode is entered by pressing said probe tip against a piece to be measured and wherein said height measuring column remains in said measure mode as long as sufficient pressing force is exerted for a predetermined period of time by the probe tip against the piece to be measured in combination with the remaining limitations of the claims.
- h. Claim 39 is allowable over the Prior Art of Record because it fails to teach or suggest a method enabling a command to switch the measure mode to be entered in a dimension measuring column provided with a probe tip wherein said command to switch the measure mode is entered by only making use of the position of said probe tip along only one of said one or more measuring axis in combination with the remaining limitations of the claims.

Application/Control Number: 10/718,859 Page 6

Art Unit: 2859

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yaritza Guadalupe McCall whose telephone number is (571) 272-2244. The examiner can normally be reached on 9:00 AM - 6:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Diego F.F. Gutierrez can be reached on (571) 272-2245. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
